## Experience

TrueLab Game Studios

### Frontend Developer

Dec 2020 - Present

- Engineered the universal UI and business logic application for games using React.js, Redux-toolkit, TailwindCSS;
- Developed internal tools which are streamlined processes and enhanced efficiency either development team and other company departments;
- Launched a documentation website using Docusaurus;
- Wrote unit and integration tests. Introduced unit tests for the most critical part across all projects;
- Wrote technical documentation (guides, processes, project plans, reports, incident postmortems, style guides etc.);
- Collaborated with internal services, QA, clients, certification services and art team members to build the best product;
- Built browser games. Frontend: TypeScript, PixiJS. Backend: NodeJS, MongoDB;
- Accompanied 11 projects at all development stages. Was responsible for technical implementation and sticking to deadlines. All projects were successfully implemented on

time;

- Assisted with onboarding of 7 new developers;
- Integrated games with gaming platforms;
- Implemented modern graphic formats that reduced average project size up to 40%;

Technologies: TypeScript, React.js, Redux-Toolkit, Tailwind, Socket.IO, Sentry, Storybook, Node.js, pm2, MongoDB, Webpack, Vite, Pixi.js

#### LocoTech Service

### **Service Engineer**

Jan 2020 - Nov 2020

- Collected and analysed key depot indicators, which affects whole depot revenue;
- Validated of collected data from internal and external sources;
- Negotiated with Russian Railways representatives about correctness of collected data;
- Negotiated with Service Engineers country-wide about correctness of collected data;
- Interpreted of collected data to depot management;
- Optimized interdepartmental communication processes;
- Automated significant part of Service Engineer duties, reducing the time for everyday operations from 6 to 2 hours;

#### LocoTech Service

### **Technician**

Mar 2019 - Dec 2019

- Integrated automatic control system (ACS) in the train depot. After 5 month integration was successfully completed;
- Trained foremen of all depot workshops to use the ACS. At the end of integration all foremen were able to operate the ASC;
- Onboarded and supervised of 5 technicians. Despite diverse previous working background all technicians were successfully onboarded;
- Solved problems with ASC operating, communicated with the developers team. During integration process were solved many small and several critical issues, that were blocking

the workflow of the entire depot;
