Summary

Frontend engineer with 5 years 4 months of experience including 3 years 7 months in commercial software development. Proficient in a wide range of base and modern web technologies (HTML, CSS, vanilla JavaScript, Web APIs, TypeScript, React, Vue, PIXI.js Node.js, MongoDB and forth). Always strive to learn new skills: for the sake of personal interest or for a new work project.

I am a team player who could efficiently communicate inside a team, across company departments or with clients.

Passionate about diving deep into complex projects and making them better, crafting accessible user-friendly interfaces, performance optimizations and delivering high-quality products.

Experience

TrueLab Game Studios

Frontend Developer Dec 2020 - Present (3 years 7 months)

- Developing a UI module: React, Redux-toolkit, Tailwind CSS;

- Developing internal tools which are streamlined processes and enhanced efficiency either development team and other company departments;

- Writing unit and integration tests. Implemented unit tests for the most critical part across all projects;

- Writing technical documentation (guides, processes, project plans, reports, incident postmortems, style guides etc.);

- Collaboraring with internal services, QA, clients, certification services and art team members to build the best product;

- Developed browser games. Frontend: TypeScript, PixiJS. Backend: NodeJS, MongoDB;

- Accompanied 11 projects at all development stages. Was responsible for technical implementation and sticking to deadlines. All projects were successfully implemented on time;

- Assisted with onboarding of 7 new developers;

- Integrated games with gaming platforms;

- Implemented modern graphic formats that reduced average project size up to 40%;

LocoTech Service

Service Engineer Jan 2020 - Nov 2020 (10 months)

- Collected and analysed key depot indicators, which affects whole depot revenue;

- Validated of collected data from internal and external sources;

- Negotiated with Russian Railways representatives about correctness of collected data;

- Negotiated with Service Engineers country-wide about correctness of collected data;

- Interpreted of collected data to depot management;

- Optimized interdepartmental communication processes;

- Automated significant part of Service Engineer duties, reducing the time for everyday operations from 6 to 2 hours;

LocoTech Service

Technician Mar 2019 - Dec 2019 (9 months)

- Integrated automatic control system (ACS) in the train depot. After 5 month integration was successfully completed;

- Trained foremen of all depot workshops to use the ACS. At the end of integration all foremen were able to operate the ASC;

- Onboarded and supervised of 5 technicians. Despite diverse previous working background all technicians were successfully onboarded;

- Solved problems with ASC operating, communicated with the developers team. During integration process were solved many small and several critical issues, that were blocking the workflow of the entire depot;
