Summary

Frontend engineer with experience in HTML, CSS, JavaScript, Web APIs, TypeScript, React, Vue, PIXI.js Node.js, MongoDB and frontend tools. Always strive to learn new skills: for the sake of personal interest or for a new work project.

I am a team player who could efficiently communicate inside a team, across company departments or with clients.

Passionate about diving deep into complex projects and making them better, crafting accessible user-friendly interfaces, performance optimizations and delivering high-quality products.

Experience

TrueLab Game Studios

Frontend Developer

Dec 2020 - Present

Responsibilities and achievements:

- Developing a UI module: React, Redux-toolkit, Tailwind CSS;

- Developing internal tools which are streamlined processes and enhanced efficiency either development team and other company departments;

- Writing unit and integration tests. Implemented unit tests for the most critical part across all projects;

- Writing technical documentation (guides, processes, project plans, reports, incident postmortems, style guides etc.);

- Collaborating with internal services, QA, clients, certification services and art team members to build the best product;

- Developed browser games. Frontend: TypeScript, PixiJS. Backend: NodeJS, MongoDB;

- Accompanied 11 projects at all development stages. Was responsible for technical implementation and sticking to deadlines. All projects were successfully implemented on time;

- Assisted with onboarding of 7 new developers;

- Integrated games with gaming platforms;

- Implemented modern graphic formats that reduced average project size up to 40%;

Technologies: TypeScript, Pixi.js, React.ts, Redux-Toolkit, Tailwind, Node.js MongoDB

LocoTech Service

Service Engineer

Jan 2020 - Nov 2020

Responsibilities and achievements:

- Collected and analysed key depot indicators, which affects whole depot revenue;

- Validated of collected data from internal and external sources;

- Negotiated with Russian Railways representatives about correctness of collected data;

- Negotiated with Service Engineers country-wide about correctness of collected data;

- Interpreted of collected data to depot management;

- Optimized interdepartmental communication processes;

- Automated significant part of Service Engineer duties, reducing the time for everyday operations from 6 to 2 hours;

LocoTech Service

Technician

Mar 2019 - Dec 2019

Responsibilities and achievements:

- Integrated automatic control system (ACS) in the train depot. After 5 month integration was successfully completed;

- Trained foremen of all depot workshops to use the ACS. At the end of integration all foremen were able to operate the ASC;

- Onboarded and supervised of 5 technicians. Despite diverse previous working background all technicians were successfully onboarded;

- Solved problems with ASC operating, communicated with the developers team. During integration process were solved many small and several critical issues, that were blocking the workflow of the entire depot;
